

Success formula?

Goal Setting... but only after you have accurate and timely data and have considered all alternatives.

alice ge

experience

Alice has completed a Master in Accounting and has over 4 years experience as an accountant.

Alice prides herself on exceeding client expectations, offering exceptional, timely, specialised and personal attention whether she's acting as a taxation and business advisor, being responsible for overall tax compliance, or whether she's planning, structuring and optimising a client's tax position within the tax legislation.

She specialises in providing accounting and taxation services to small and medium enterprises as well as high net worth individuals. She works with a diverse range of individuals in industries including manufacturing, retail and property construction.

In advising clients, Alice's focus is on providing creative solutions to problems and communicating those solutions in a clear concise and understandable manner.

Alice is a clear thinker, analytical and organised.
